Virginia Ermondi

VR Software Developer | Unity · C# · XR

virginia.ermondi@gmail.com · Portfolio · Italy

PROFILE

Software developer working across immersive technologies, VR training, interaction design and audio. Experience developing Unity applications, coordinating project work, and collaborating with multidisciplinary teams. Background spanning engineering and media.

EDUCATION

Polytechnic University of Turin (Politecnico di Torino) | Cinema & Media Engineering

Master's programme · 2023–2025

Master's thesis: Exploring Virtual Reality for Breastfeeding Education: A Study on Interaction Methods and Proxy Fidelity. Research and thesis work at Ontario Tech University, Oshawa, Canada (Feb–Jul 2025).

University of Turin (Università degli Studi di Torino) | Arts, Music and Entertainment

Bachelor's programme · 2023–Present

Polytechnic University of Turin (Politecnico di Torino) | Electronic & Communications Engineering

Bachelor's degree · 2019–2023

Liceo Classico Massimo D'Azeglio, Turin

Classical Studies high school diploma · 2019

PROFESSIONAL EXPERIENCE

VR Software Developer (Unity) | Virtual Safety Lab

Dec 2025–Present

Develop gamified VR safety training applications with Unity, contributing to programming, application implementation and project coordination. Recent work includes interactive assessments, reporting systems, localization and spatial audio.

IT Area Member | IEEE-HKN Mu Nu Chapter Association

Oct 2024–Jul 2025

Maintained and updated the association website, collaborating on content accuracy, functionality and user experience.

Radio Presenter & Director | OndeQuadre, Politecnico di Torino

Oct 2023–Feb 2025

Hosted the technology show Hi! Tech, developed editorial content and directed recording sessions, including technical production.

VR Game Developer / Audio Lead | LevelUpLab, Politecnico di Torino

Oct 2023–Dec 2024

Led sound design and spatial audio work within a student VR game development team.

Research Intern | LINKS Foundation

Oct 2022–Jan 2023

Collected measurements and developed a model assessing the reliability of angles of arrival measured by a UWB telecommunications device.

ADDITIONAL EXPERIENCE

Children’s Activity Leader | CUS Torino

Summer 2023

Led sports and educational activities for children at a summer camp.

Certified Beach Volleyball Coach | CUS Torino

Oct 2019–Jul 2022

Coached athletes alongside competitive beach volleyball activity; also served as COVID Manager during the pandemic.

Children’s Book Translator | Liceo Massimo D’Azeglio & Sui Generis

2018–2019

Translated Um Tesouro em Preto e Branco by Flávia Muniz from Portuguese (with English reference) into Italian; presented the work at the Turin International Book Fair.

TECHNICAL SKILLS

Programming: C, C#, Python, Kotlin · VR/XR: Unity, OpenXR, Oculus SDK · ML & engineering: TensorFlow, MATLAB, Arduino IDE · Version control & methods: Git, Agile · Creative tools: FMOD, Blender, DaVinci Resolve, GIMP, Ableton, REAPER, Figma
